## ALTERTREK

My name is Marta and I am a hiking and equestrian environmental guide who lives and works in Casentino: the passion for a unique valley has led me to specialize in activities according to historical, cultural and naturalistic features with an eye to tradition. I accompany in a natural environment families, groups and fans with the aim of characterizing each outing with something unique: with this intent are born hiking programs in every season of the year and also at unusual times...snowshoeing, even for newbies, sunset and night excursions dedicated to fireflies, forest excursions dedicated to the lights and colors of the period, water trekking and seasonal ritual activities such as chestnut picking and mushroom hunting, but also wildlife activities dedicated to deer and the Apennine wolf, and trekking with donkey for children of all ages!

- excursions of varying duration and even multi-day trekking
- donkey trekking
- activities in the forest with the Wolf Howling technique
- crepuscular excursions dedicated to bramito
- e-bike guide
- guide for the collection of mushrooms for educational purposes
- seasonal activities related to typical products (chestnuts)
- excursions dedicated to fireflies water trekking for families
- snowshoeing for children and bob trek (unpublished)
- forest bathing (forest diving)

## ARTENA

Trekking Artena is a small group of environmental guides passionate about natural beauty, in all its forms! Our work is dedicated to deepen themes of wildlife and forest research, with great attention to environmental education as a tool for knowledge and disclosure.

Nature belongs to everyone, our job is to make it accessible in safety: we cater to small groups, schools, families and people with disabilities.

We study paths, new ideas, and we are never tired of exploring!

## BIOAGRITURISMO LUCATELLO

Lucatello is an organic and educational farm. We are a family of 4 people including two environmental guides and we deal with nature tourism. Maura will accompany you on the farm and in the woods to discover traces of wild animals and herbs to smell, touch, taste. Giorgio will introduce you to the farm animals and cooking specialties. Marcello will show you how to make cheese. Matilde can do all the tours in various languages.

We also offer educational activities on the farm for adults, children, families and mixed groups, accompanied by sensory experiences in the woods, in the field and at the table.

We realize twilight and night walks to learn about noises and voices in the woods and in the field at night.

## COOPERATIVA ÓROS

The name Óros etymologically indicates the sacred mountain. The territory in which the cooperative intends to operate is in fact characterized by many mystical places that have marked the history of Casentino in general, and the National Park of the Casentino Forests in particular: from the "Monte Sacro" of La Verna where Saint Francis received the stigmata, the Mount Falterona with the Lake of the Etruscan Idols, whose mystery still today arouses suggestion and interest to the visitor, to the Hermitage of Camaldoli also arose on a mountain as a place of prayer, reflection and welcome.

The Cooperative OROS since 2001 is present in Casentino with services and activities aimed at enhance the great natural and cultural heritage of this area, establishing collaborations with both public and private subjects and relying on highly format and specialized.

Our cooperative's activities include:

- management of cultural facilities (Castello di Romena, Castello di Poppi and Archaeological Museum of Casentino)
- management of information facilities (infopoint of the National Park of the Casentino Forests, the Planetarium of the Park, Bibbiena and Pratovecchio-Stia infopoints)
- organization of educational projects with local schools
- organization of summer camp services in agreement with local authorities
- organization of nature excursions and guided tours
- management of the Casentino Tourist Area

## FATTORIA FIAMMASOLE

It is a small family-run farm where olives, apple trees, pears, figs, walnuts, hazelnuts, chestnuts, and aromatic herbs are grown naturally. We are testing different cultivation techniques of the garden to find, perhaps taking something from each, our special formula. Here we breed two donkeys, a pony, dogs, cats, bees and hens.

Here we offer "samples" of life in the countryside. Always ready to learn from anyone who comes to visit.

The proposed activities are aimed at those who love nature, to live at a slow pace, enjoying the scents, sounds, colors, landscapes, the nuances of this territory remained still genuine.

We also cater for families with children-specific activities that are described on the site.

Day and night excursions suitable for everyone that can be customized according to the number of participants, age, special needs.

- Educational farm
- camping
- refreshment
